Education

B.Tech in Computer Science Engineering – ABES Engineering College, Ghaziabad (2025 – 2029)

Technical Skills

- Programming: C++ (Beginner), Problem Solving
- Web Development: HTML, CSS, JavaScript
- Tools & Platforms: Git, GitHub, VS Code, Netlify
- Core Interest: Data Structures & Algorithms

Projects

- **ABES SGPA Calculator** – Developed a web application that allows ABES Engineering College students to automatically calculate their semester SGPA. Implemented dynamic grade calculations using HTML, CSS and JavaScript. Deployed publicly using Netlify. (abessgpa.netlify.app)
- **Dixit Developer Dashboard** – Designed a personal developer portfolio dashboard to showcase projects, links and developer profile. Built responsive layout using HTML and CSS and deployed online. (dixitdashboard.netlify.app)
- **C++ Console Calculator** – Built a command line calculator implementing arithmetic operations such as addition, subtraction, multiplication and division to practice C++ programming concepts.

Learning & Development

- Practicing Data Structures & Algorithms
- Preparing Engineering Mathematics concepts for GATE
- Regular coding practice and exploration of open source projects
